## Safety Information

### About Photosensitive Seizures

A very small percentage of people may experience a seizure when exposed to certain visual images, including flashing lights or patterns that may appear in video games. Even people who have no history of seizures or epilepsy may have an undiagnosed condition that can cause these "photosensitive epileptic seizures" while watching video games.

These seizures may have a variety of symptoms, including lightheadedness, altered vision, eye or face twitching, jerking or shaking of arms or legs, disorientation, confusion, or momentary loss of awareness. Seizures may also cause loss of consciousness or convulsions that can lead to injury from falling down or striking nearby objects.

Immediately stop playing and consult a doctor if you experience any of these symptoms. Parents should watch for or ask their children about the above symptoms—children and teenagers are more likely than adults to experience these seizures.

The risk of photosensitive epileptic seizures may be reduced by sitting farther from the television screen, using a smaller television screen, playing in a well-lit room, and not playing when you are drowsy or fatigued.

If you or any of your relatives have a history of seizures or epilepsy, consult a doctor before playing.

**Other Important Health and Safety Information** The Xbox Instruction Manual contains important health and safety information that you should read and understand before using this software.

### Avoid Damage to Your Television

**Do not use with certain televisions.** Some televisions, especially front- or rear-projection types, can be damaged if any video games, including Xbox games, are played on them. Static images presented during the normal course of game play may "burn in" to the screen, causing a permanent shadow of the static image to appear at all times, even when video games are not being played. Similar damage may occur from static images created when placing a video game on hold or pause. Consult your television owner's manual to determine if video games can be played safely on your set. If you are unable to find this information in the owner's manual, contact your television dealer or the manufacturer to determine if video games can be played safely on your set.

Unauthorized copying, reverse engineering, transmission, public performance, rental, pay for play, or circumvention of copy protection is strictly prohibited.

### **Connect to Xbox Live**

**Important!** Before using this product, read the Xbox Instruction Manual for important safety information and health warnings.

#### **Step 1: Connect**

To connect your Xbox console directly to broadband, see diagram A. Or, to share your broadband connection with a PC, see diagram B.

For more details and other home networking options, including Internet connection sharing, see [www.xbox.com/live](http://www.xbox.com/live).

##### **A. Direct Connection**

##### **B. Shared Connection**

#### **Step 2: Go Live**

Important! Xbox Live™ is a subscription service. You will need a subscription code to set up an Xbox Live account and play online. To find out how to get a subscription code, visit your local retailer or see [www.xbox.com/live](http://www.xbox.com/live).

You'll need to set up an Xbox Live account to play games online. Here's how:

1. Insert an Xbox Live Starter Kit disc or game disc into the disc tray. Check game packaging to see if the game supports Xbox Live play.
2. From within the game, select the option for Xbox Live.

At this point, the Xbox console will try to go online. If it works, create your Xbox Live account by following the instructions on screen and entering your subscription code when prompted.

If the Xbox console can't go online automatically, you'll get an error message. Go on to Step 3.

#### **Step 3: Configure (if necessary)**

If you can't go online automatically, use Network Setup in the Xbox Dashboard to enter some network settings. You may need to enter information such as a host name, a MAC address, or an ISP user name and password. Contact your broadband service provider if you don't have this information. Once you have the information, enter it in the Xbox Dashboard.

#### **Need more help?**

Should you have any problems connecting to the Xbox Live service, do not attempt to take apart, service, or modify the Xbox console or peripherals in any way. Doing so could present the risk of serious injury or death from electric shock or fire and will also void your warranty. For additional assistance see [www.xbox.com/live](http://www.xbox.com/live) or call the Customer Support number:

- **Distance spent in the air** (distance spent with all four wheels off the ground)

Your skill in these disciplines contributes both to the rate of increase of your Burn Meter™ and your score.

## CHAMPIONSHIP

In Championship mode, the player races through a series of GP races, unlocking additional Courses and Modes as they progress. New Courses that are unlocked in Championship Mode then become available in other Game Modes.

There are two main Championship seasons – the Standard Championship and the Custom Series Championship.

### Championship Progression – Standard Championship.

You race against three computer opponents. You are ranked on a leader board at the end of each race, 3 points for 1st place, 2 points for 2nd place, 1 point for 3rd place and zero for fourth. The player with the most points accumulated at the end of all the races in a GP wins! You must win a GP to unlock the next one in the series.

There are four GP's in the Standard Championship season, including three point to point races.

There are 3 Pursuit Races to unlock in this season.

There are 4 Face/Off Races to unlock in this season.

The final race in the Standard Championship is the Custom Series Qualifier. If you complete this event, you will unlock the Custom Series Championship and earn your first Custom Series vehicle.

## CUSTOM SERIES CHAMPIONSHIP

Custom Series vehicles are the specialist, modified, tuned-up counterparts of the seven initial standard vehicles. They are race-tuned, each complete with bodykits, decal sets, tuned engines and improved handling. These are the fastest and most furious cars in the game.

### Championship Progression – Custom Series Championship

When the Series is unlocked, the player must compete in a new series of GP races. In these races, the player will race against CPU opponents all driving Custom Series vehicles.

There are 4 GP's in the Custom Series Championship.

There are 3 Pursuit Races to unlock in this season.

## **SINGLE RACE**

In Single Race, players can challenge any unlocked courses. Initially only three Courses are available. More Courses become available after they have been unlocked in Championship Mode. Players always race against three other AI drivers in this mode. This is a great way to hone your driving skills before taking on Championship Mode.

## **TIME ATTACK**

In Time Attack Mode, one player can challenge any unlocked Course in a race against the clock. The player will always race alone in this mode. There are no CPU opponents in this mode.

## **PURSUIT**

This mode is unlocked through Standard Championship progression. In this mode, the player must chase a target vehicle and crash it off the road. In 1P Mode, the player will always drive the Police Car.

## **CRASH**

Smash your car into the traffic to see how much insurance damage you can rack up! There are three stages unlocked at the start of the game. Score a Bronze Medal at each stage to unlock more stages.

## **MULTIPLAYER**

Some options in this menu are highlighted only if two Xbox controllers are plugged into the controller ports. In Multiplayer Mode, two players compete on a split screen.

Each player chooses the car they want to drive on the Vehicle Selection Screen. Once each player has selected the cars they want to race, the Course Selection screen is displayed. On this screen, Player One will choose which Course is to be raced.

On a standard (4:3) TV, the screen is split showing Player One at the top and Player Two at the bottom. On a widescreen (16:9) TV, the screen is split showing Player One on the left and Player Two on the right.

## **MULTIPLAYER SINGLE RACE**

Two players can race against two CPU opponents. Any course unlocked in single player progression can be raced.

## **MULTIPLAYER PURSUIT MODE**

Once unlocked, two players can race any unlocked vehicle against any unlocked vehicle on any previously unlocked courses. Player One will always drive the pursuit vehicle. Player Two will always drive the target vehicle. If the target gets rammed ten times, the pursuit is over.

## **MULTIPLAYER CRASH MODE**

Challenge up to FOUR players in a Burnout™ 2 Crash Tournament. Each player gets an attempt at causing the most damage in three specially created crash junctions, which can be selected in groups of three from a total of thirty.

The player with the highest total score at the end of the tournament wins! Choice of car, speed and angle of approach can make all the difference! Good luck and make sure your seat belt is securely fastened!
